MINIATURE AFRICAN VIOLET LIST

plants \$1.50

May 1, 1954

We consider the terms Miniature and Dwarf to be interchangeable. Miniature African Violets are varieties which grow very slowly and have small leaves. The flowers vary from small to medium-large. We do not believe any of these plants are stunted, but are genuine miniatures.

Miniature leaves are small and somewhat more difficult to root, due to size, rather than other factors. Our supply of miniature plants is very limited, and we are listing only the varieties we have on hand in sufficient quantity to supply anticipated demands for leaves. We hope to have plants for sale in September.

Leaves are priced at 50¢ each, unless otherwise priced. Please include 50¢ for packing and postage on all orders. Please list substitutes, otherwise we do not substitute for leaves not available at the time of your order.

- Annabelle. Large girl, tufted foliage, large orchid flowers. 75¢ 50 plants
- Anna Purna. Light red flowered girl. 75¢
- Baby Doll (Mahr) Cute little dwarf, with rather curly foliage, and wine red flowers. plants
